Packaging Units:	1, 2, 9, 18
1 Roll per	Dispenser
Shipping large amounts	Euro-Pallet
Storage Duration:	min. 5 Years (dry)

FOLIOCONTACT ERASE

is an environmental friendly Flip-Chart Media, made of Polypropylen. It has been developed and been produced by NOPAR INTERNATIONAL GmbH and patented under: EP 1326918 B1.

FOLIOCONTACT is a special produced 3-layer coex cast PP-Film. The mid Layer is able to take on ionisation and keepit for at least 5 Years, depending on the storage conditions, packed and boxed at 40-50% rel. humidity, at 18°-22°C.

The 25 sheets in the size of 600mm width and 800mm length can easily be separated from the roll at the provided perforation line. Each sheet adhere to virtually any surface without any other tools, such as adhesive or pins disputes.

The film is ideally suited for use with non-permanent, or dry erase whiteboard markers. When using permanent markers, it will be not possible to clean the film surface again, except when alcoholic cleaning solution is taken (please care about dangerous Goods Regulations). FOLIOCONTACT ERASE is not made for printing or individual printed artworks in this case we recommend the product FOLIO CONTACT GRIDDED.

For further details please contact NOPAR INTERNATIONAL INC.

FOLIO CONTACT can be recycled, can be disposed with the yellow bag and capable for energy recovery. Safety data sheets can be requested if necessary.

Any reproduction or use of this publication or partially reproduced information in electronic or printed form is prohibited without written permission and acknowledgment by the owner.
