

**50 µm PP-Film glossy erasable
with electrostatic charge.**

FOLIOCONTACT

Simply Notes 2.0

Description:

Simply Notes 2.0 is the second generation of sticky notes by Folio Contact.

Do your notices on Simply Notes 2.0 and stick them on any smooth surface you want.

The notes will stick for a long time, without any glue, pins, magnets or tape. Every sheet will stick to the surface, because of its electrostatic charge.

Simply Notes 2.0 are not coated and will not leave any residues on sensitive surfaces. The coloured front is writable with permanent-marker and ball pens. Permanent- and whiteboard-marker can be used on the white back side. Notices with whiteboard can be wiped off and the notes are reusable up to ten times. It is also possible to write with a soft pencil lead on it.
